Modularity

Each canopy is a single metal unit, which can be combined in numerous combinations to create a wide variety of arrangements.

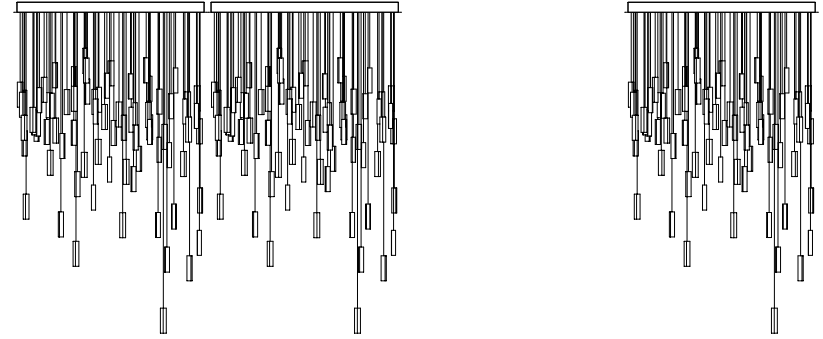

Loci design spanning across three rectangular canopies

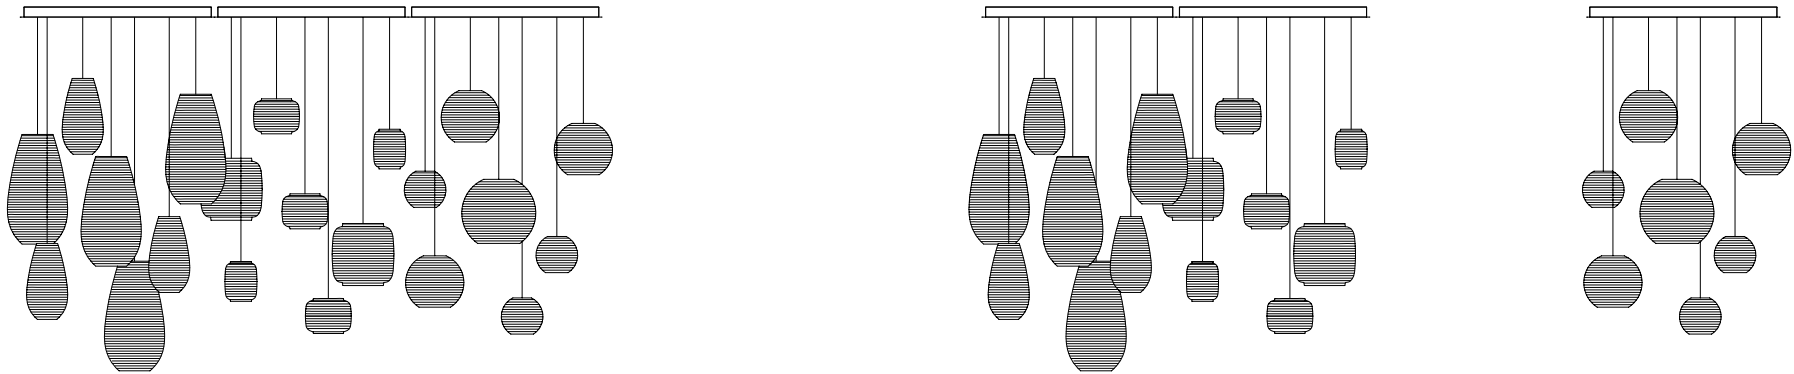

Scalability

Standard canopies aren't limited to large spaces. Single or double installations can accentuate any space.

Installation

Canopies are constructed from steel with a smooth black powder-coated finish. **Custom canopy colors are available upon request.**

The canopies are designed to be installed easily into any ceiling. They can be directly flush-mounted to the ceiling or suspended by aircraft cable.

loci

Loci, which in Latin means 'centralized sources of power,' refers to the series' innovative method of achieving hundreds or thousands of singular points of light in an installation.

Each sculptural lighting fixture is based on a system of glowing acrylic pixels internally lit using the light-carrying qualities of fiber optic cable. Each installation is illuminated from a single illuminator hidden above the canopy, saving energy while maintaining brightness. Even when not illuminated, the formation catches the light and creates a dynamic focal point.

Loci pendants are available in single-canopy and multi-canopy arrangements.

Custom arrangements are available upon request.

murmurations

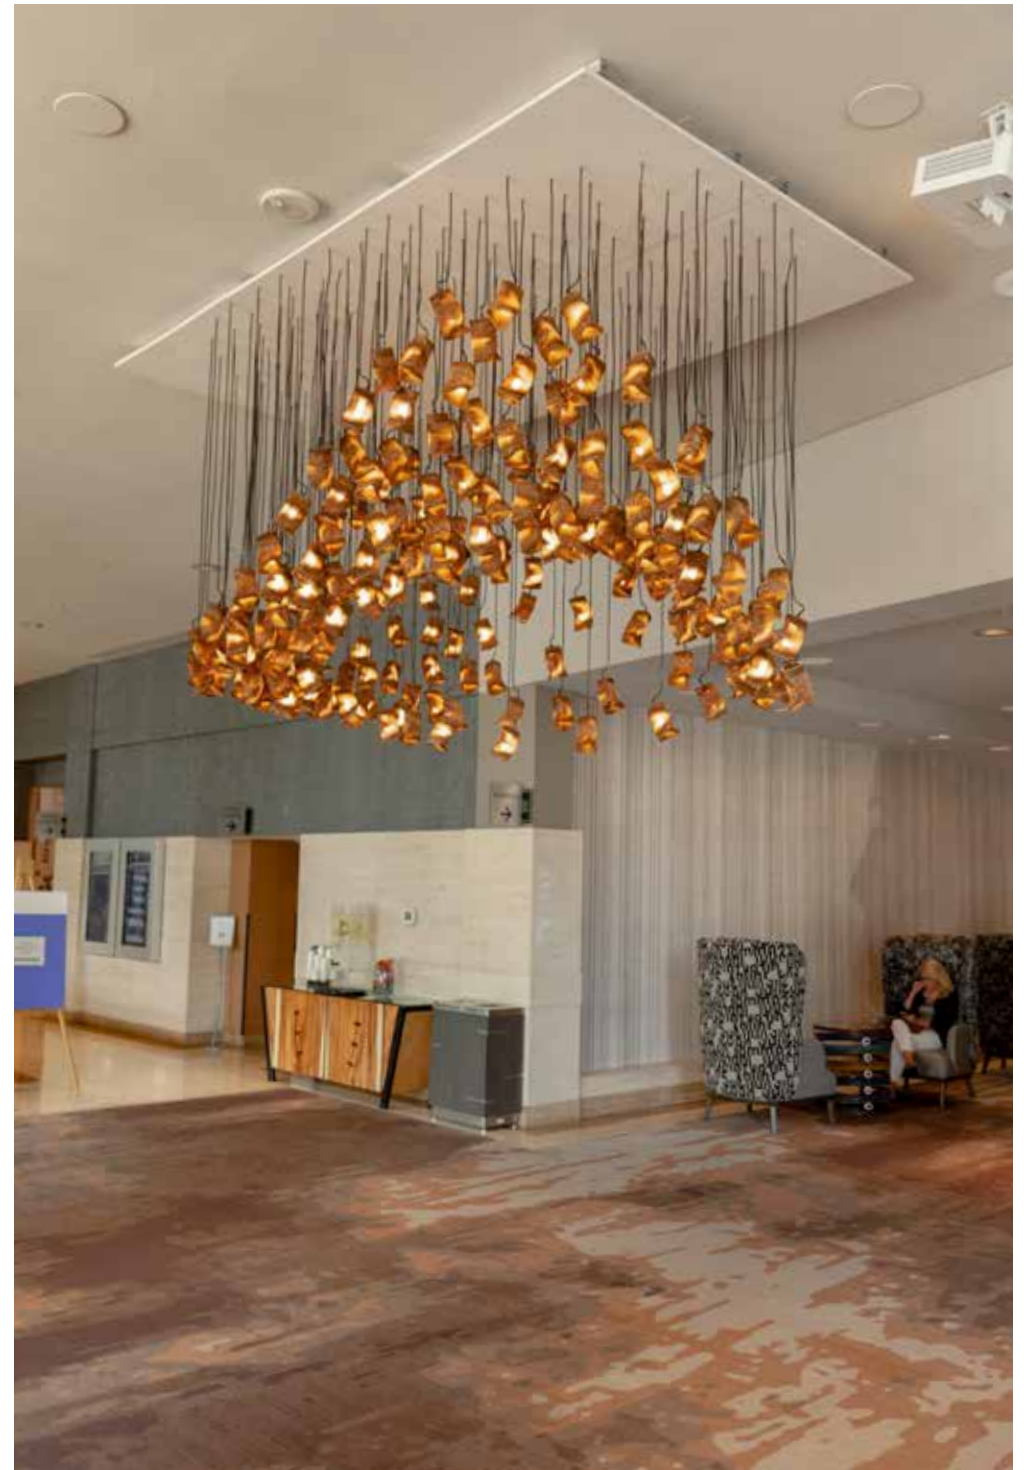

Murmurations are custom installations inspired by a breathtaking natural phenomenon. Flocking is considered an emergent behavior arising from simple rules that are followed by individuals without any central coordination. By creating our own simple design rules, we are able to create dynamic light installations comprising of a single layered cardboard pendant.

Murmurations are available in single-canopy and multi-canopy arrangements.

Custom arrangements are available upon request.
