New Lighting  
Collection

2024

At Nexia, since our beginning in 2003, we cultivated two decades of commitment to lighting rigour. We are proud to reflect on our journey and appreciate the constant evolution that brought us to find our mission: to simplify the creation of friendly environments that connect people with technology, in order to provide unique and ultimately better experiences.

We adhere to a set of goals: products and projects that seek rigour in light, visual comfort, efficiency and innovation.

Culture x light

Belle

by  
Nahtrang Studio

Belle, a versatile modular system that combines three types of hood: conical, semi-circular and semi-circular glass. This innovative system offers unique and customisable pieces with a wide range of finishes, colour temperatures and adjustment options.

Porte

by  
Nahtrang Studio

Porte immerses us in a playful world by fusing fresh colours, bright finishes and clean shapes. The harmonious connection between the head and the base, crossed by a delicate stem, reflects balance and mobility. This head, as an independent main element, is combined with various supports to allow four types of installation and adaptations, thus satisfying any need.

Minim

Introducing Minim, a small, low-voltage linear luminaire that redefines the lighting experience with its exceptional design and subtlety. Operating at 48V and available in Dali version, it offers precise and versatile lighting, adapting to your preferences with three colour temperature options: 2700K, 3000K and 4000K. Thanks to its technicality, Minim provides high visual comfort in any environment. In addition to the classic black and white options, Minim is available in Coral Red, Blue Grey, Cement Grey and Silk Grey.

# Let go

Let Go, an avant-garde system of linear structures designed to adjust quickly and versatilely to any environment thanks to its clipping mechanism. This innovative luminaire stands out not only for its easy installation, but also for its ability to adapt without the need for disassembly, allowing effortless customisation. With its modern and intuitive design, Let Go enhances every space with precise lighting. Available in 3 colour temperatures 2700K, 3000K and 4000K. Ideal for environments requiring high lighting rigour.

# Sutil mini

Introducing Sutil Mini, the smaller version of Sutil. An indoor spotlight that blends simplicity, efficiency and technology in a minimalist design. Made of aluminium, Sutil Mini is the perfect choice for those spots where no track is available, standing out for its adaptability and discreet style. Featuring simple lines with a minimalist look and feel, Sutil Mini retains the essence of its predecessor, providing efficient and technical lighting in a reduced format.
